

Tanita KD200-series Portable Electronic Food Scale

The Tanita KD-200 is perfect as a general purpose scale for home, factory, office or school. Splash proof design is the ultimate for kitchen & food preparations or even dieters or diabetics needing a scale to weigh their food intake. Large 7.2" x 7.2" removable stainless steel platform and thoroughly thought out design enables you to weigh envelopes and small parcels while still offering a clear view of the LCD.
